**Proposal 2: Issuance of Subscription Rights to Shares as Stock Options to Employees**

We propose to issue subscription rights to shares as stock options to the Company's employees without consideration, and to delegate to the Board of Directors the authority to determine the subscription requirements for the subscription rights to shares as described below.

I. Reason for necessity of issuing the subscription rights to shares on particularly favorable conditions  
Stock options will be implemented with the aim of enhancing sound management and social trust of the Company by bolstering employees' motivation and morale toward improving performance.

II. Details of issuance of the subscription rights to shares

1. Persons to whom the subscription rights to shares will be allotted

The Company's employees (persons who have newly become eligible as defined by the Company, etc.)

2. Class and number of shares to be issued upon exercise of the subscription rights to shares

Not exceeding 150,000 common shares of the Company.

In the event that the Company conducts a share split or share consolidation after the date of allotment of the subscription rights to shares, the number of shares subject to the subscription rights to shares shall be adjusted according to the following formula. Such adjustment, however, shall be made only to the number of shares subject to the subscription rights to shares which are not yet exercised at that point of time, and any fractions less than one (1) share resulting from the adjustment shall be rounded down.

$$\begin{array}{rcccl} \text{Number of shares} & & & & \\ \text{after adjustment} & = & \text{Number of shares} & \times & \text{Ratio of share split or} \\ & & \text{before adjustment} & & \text{share consolidation} \end{array}$$

Also, in the event that the Company conducts a merger or share exchange with another company, or a company split, or in any other cases that for unavoidable reasons require the adjustment of the number of shares subject to the subscription rights to shares, the Company may adjust the number of shares to a reasonable extent.

3. Total number of the subscription rights to shares to be issued

Not exceeding 1,500 units. (The number of shares subject to each unit of the subscription rights to shares shall be 100. However, in the event that the adjustment set forth in II.2. is made to the number of shares, adjustment shall be made in the same manner.)

4. Cash payment for the subscription rights to shares

No cash payment shall be required for the subscription rights to shares.

5. Value of assets to be contributed upon exercise of the subscription rights to shares

Assets to be contributed upon exercise of the subscription rights to shares shall be cash. The amount to be paid upon exercise of each unit of the subscription rights to shares shall be the amount obtained by multiplying the amount to be paid per share determined as set forth below (hereinafter referred to as the "Exercise Price") by the number of shares subject to each unit of the subscription rights to shares set forth in II.3.

The Exercise Price shall be the highest of the amount multiplying 1.05 and the average closing price of the Company's common shares in regular trading at the Tokyo Stock Exchange on each day (excluding days with no transactions) of the month prior to the month including the day of issuance of the subscription rights to shares (fractions less than one (1) yen shall be rounded up to the nearest one (1) yen); the closing price of the Company's common shares in regular trading at the Tokyo Stock Exchange on the day of issuance of the subscription rights to shares (if there are no transactions on such day, the closing price of the immediately preceding day); or 2,353 yen (the exercise price of the Company's 35th subscription rights to shares).

In the event that the Company conducts a share split or share consolidation, the Exercise Price shall be adjusted according to the following formula, and any fractions less than one (1) yen resulting from such adjustment shall be rounded up to the nearest one (1) yen.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Ratio of share split or share consolidation}}$$

Also, the Company may adjust the Exercise Price in the event that the Company conducts a merger or share exchange with another company, or a company split.

In the event that the Company issues new shares or disposes of treasury stock at a price lower than the market price (excluding securities to be acquired by the Company or securities with rights of requesting acquisition by the Company, both in exchange for delivery of the Company's common shares, or exercise of subscription rights to shares through which delivery of the Company's common shares may be requested), the Exercise Price shall be adjusted according to the following formula, and any fractions less than one (1) yen resulting from such adjustment shall be rounded up to the nearest one (1) yen.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{\text{Number of shares issued} + \frac{\text{Number of common shares newly issued} \times \text{Amount to be paid per share}}{\text{Share price of common shares before issuing new shares}}}{\text{Number of shares issued} + \text{Number of common shares newly issued}}$$

In the formula above, "Number of shares issued" shall mean the number calculated by subtracting the number of treasury stock of common shares held by the Company from the total number of shares issued by the Company. In the event of disposal of treasury stock, "Number of common shares newly issued" and "Share price of common shares before issuing new shares" shall be replaced with "Number of treasury stock to be disposed of" and "Share price of common shares before disposal," respectively.

6. Exercise period of the subscription rights to shares  
From June 1, 2028 to May 31, 2030
7. Matters regarding capital stock and legal capital surplus to be increased by issuance of shares upon exercise of the subscription rights to shares
  - (1) In the event of new share issuance by exercising the subscription rights to shares, the amount of capital stock increased shall be half of the limit of increase in capital stock, etc. calculated in accordance with Article 17, Paragraph 1 of the Ordinance on Accounting of Companies, and any fractions less than one (1) yen resulting from such calculation shall be rounded up to the nearest one (1) yen.
  - (2) In the event of new share issuance by exercising the subscription rights to shares, the amount of legal capital surplus increased shall be calculated by subtracting the amount of capital stock increased set forth in (1) above from the limit of increase in capital stock, etc. in (1) above.
8. Conditions for exercising the subscription rights to shares

  - (2) When those who received the allotment of the subscription rights to shares no longer satisfy the conditions to exercise the subscription rights to shares, the Company may acquire the subscription rights to shares of such persons without consideration and cancel them by resolution of the Board of Directors.

- Transfer of the subscription rights to shares shall require the approval of the Board of Directors.

However, the foregoing shall be limited to cases where it is prescribed in the absorption-type merger agreement, incorporation-type merger agreement, absorption-type company split agreement, incorporation-type company split plan, share exchange agreement or share transfer plan that the subscription rights to shares of the Reorganized Corporation shall be issued under the following conditions:
